

MORGAN SAAF-WHITE

PROFILE

In my third year studying for a Costume Design MFA at Northern Illinois University, I believe that an effective costume designer needs to understand the demands of wardrobe. Since 2015 I have been working as a Wardrobe Professional in the Chicago area and have now expanded my reach nationally as well, including branching out into young performer supervision and building a wardrobe program within my university. Please contact me if you'd like to see any of my paperwork
